## OBJECTIVE

Dynamic and ambitious Computer Science Engineering student with a passion for full-stack development and problem-solving. Proficient in JavaScript, React.js, and Node.js, with a solid foundation in web development and IoT integration. Seeking a software engineering internship to leverage technical skills and contribute to innovative projects in a collaborative environment.

## EDUCATION

**Bachelor of Engineering in Computer Science**, DMI Engineering College, Anna University      Expected 2025  
CGPA: 8.13 (Till 6th Semester)

## SKILLS

<b>Technical Skills</b>	Java, C, JavaScript, HTML, React.js, Node.js, Three.js
<b>Soft Skills</b>	Problem-solving, Collaboration, Communication, Time Management, Adaptability

## INTERNSHIPS

<b>Industrial Training on Android Application Development with IoT</b>	Nov 2023
NSIC-Technical Service Centre, Guindy Industrial Estate	Chennai

- Developed Android applications integrated with IoT technologies.

<b>MERN Stack and Web Development Internship</b>	July 2024
Feather Tech	Nagercoil

- Developed dynamic web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).

<b>AI/ML Internship</b>	March 2025 - Present
AK Info Park	Nagercoil

- Working on AI/ML models for real-time applications.
- Gaining hands-on experience with data preprocessing, model training, and deployment.

## PROJECTS

<b>Translatify: Media Player with Live Audio Translation</b>	(2025)
Developed a React Native media player app with real-time audio translation, supporting video and audio file selection with a seamless UI.	

<b>Virtual Garden Website for Medicinal Plants (Smart India Hackathon)</b>	(2024)
Created a 3D virtual garden featuring medicinal plants and herbs for educational purposes. <a href="#">Project Link</a>	

<b>VisionMate: Enhancing Accessibility for the Visually Impaired with Real-Time Object Detection</b>	(2024)
Developing an Android app to enhance accessibility and independence using real-time object detection and voice feedback.	

<b>E-Commerce Website</b>	(2023)
Developed a scalable e-commerce website with dynamic product data management. <a href="#">Project Link</a>	

<b>Optimizing Hospital Appointment Scheduling System</b>	(2022)
Developed a methodology using RFID tags, facial recognition, and AI algorithms for scheduling appointments.	

## **WORKSHOPS**

---

- UI/UX design workshop on creating application interfaces (Feather Tech, Nagercoil).
- Completed NPTEL course on Software Testing (IIT Kharagpur, results awaited).
- Front-end web development workshop.

## **EXTRA-CURRICULAR ACTIVITIES**

---

- Music: Guitar
